

Sponsor a Cancer Companion Today!!

ASCEND will introduce the first educational Cancer curriculum appropriate for children into the school systems. By utilizing a fun, fictional story book, along with a stuffed version of its main character, "Champ," teachers and parents will be able to educate children on social concerns and treatment protocols for Cancer. The interactive learning experience is meant to advocate positive healing messages for those touched by Childhood Cancer.

- Every \$50 donation allows us to reach out to a child with a dog and a story book.
- 100% of donations and proceeds to this initiative go toward placing books and dogs directly in the hands of educators.
